

Daniel Castro, Senior Analyst, Information Technology and Innovation Foundation

Daniel Castro is a Senior Analyst with ITIF specializing in information technology (IT) policy. His research interests include health IT, data privacy, e-commerce, e-government, electronic voting, information security and accessibility. He has experience in the private, non-profit and government sectors.

Before joining ITIF, Mr. Castro worked as an IT analyst at the Government Accountability Office (GAO) where he audited IT security and management controls at various government agencies. He contributed to GAO reports on the state of information security at a variety of federal agencies, including the Securities and Exchange Commission (SEC) and the Federal Deposit Insurance Corporation (FDIC). In addition, Mr. Castro was a Visiting Scientist at the Software Engineering Institute (SEI) in Pittsburgh, Pennsylvania where he developed virtual training simulations to provide clients with hands-on training of the latest information security tools. He has a B.S. in Foreign Service from Georgetown University and an M.S. in Information Security Technology and Management from Carnegie Mellon University.
